52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

1. Technical Acceptability

i. This solicitation includes requirements for the required spare parts to be provided on a “Brand Name or Equal” basis, in accordance with FAR 11.104 and the FAR provision 52.211-6 incorporated into this solicitation. Offerors may choose to offer the specified item (see list under Schedule B) or another product determined to be “equal” to the specified product. All “or equal” products to be delivered under the resulting contract shall comply with the salient characteristics set forth in the solicitation. These characteristics shall be used by the Government to determine that the offered products are equal to the specified product.

ii. Technical proposal shall consist of and must include:

(1) Certification that the contractor will provide the spare parts on the list included in the solicitation on a brand name or equal basis. Certification shall be on the company letterhead and signed by an authorized representative of the company.

(2) Descriptive literature or brochures for the proposed “equal” item that demonstrate that it meets or exceeds the salient characteristics of the requirement.

(3) BRAND NAME OR EQUAL Information: Offerors shall provide the following information for any “or equal” items proposed in lieu of the specific manufacturer, brand, make, model listed above.

The Government reserves the right to make a technical acceptability determination without discussion with the offeror.

2. Price

Total evaluated price shall be the basis for evaluating price for contract award decision purposes. Total evaluated price shall be determined by adding the proposed prices on the list of items/ spare parts stated in the solicitation. Contractor shall price all line items in the list of items/spare parts. In the event the unit price(s) and extended price(s) are ambiguous, the Government shall use the indicated unit price(s) for evaluation and award purposes. The Government reserves the right to make an award on any item of a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

Award will be made to the lowest priced technically acceptable proposal.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
