

W913FT-10-R-0012

Technical Exhibit 1

Aircraft Specifications

The Contractor agrees that the following aircraft identified by tail number will be either owned or controlled by the company in such a manner as to assure complete control over the aircraft for the performance of this contract. Additional contractor-owned or controlled aircraft may be added or deleted during the period of this contract only with the written concurrence of the Contracting Officer and after the aircraft have been technically approved by the Quality Assurance Monitor.
